Financial First Aid Kit

Helping Families Build Clarity
and Structure for Whatever
Tomorrow Brings.

Join Financial Advisor Randy Nittoli with Edward Jones and Estate Attorney Donny Knepper with The Law Offices of Donny Knepper for a practical discussion on organizing important information, key documents, and trusted contacts so your family has a roadmap when it matters most. We'll share simple steps to help you get organized, improve financial readiness, and prepare for life's unexpected events. Most families keep a first aid kit for emergencies, but few have a plan for unexpected life events. Whether it's an illness, job loss, accident, or family emergency, unexpected events can create confusion and stress for families.
